Energy Healing & Dreamworking  
for Mental-Emotional Health

## Story

Tyrell Blacquemoss (TBN) is a **prophetic dreamworker** and descendant of a long line of African priests and Turtle Island medicine people, child of Venus and Carleton Childs. As a **scholarly researcher** with a Bachelor's of Fine Art with an emphasis in Africana Studies and Indigenous Studies, TBN reclaims and continues their family legacy of the science and art of dreaming. TBN has **traveled globally** studying with shaman, elders, and healers of the following traditions: African diasporic and Western Herbalism, Conjure/Hoodoo/Rootwork, Southern Folk Medicine, Pachakuti Mesa (Peruvian shamanism), Sonoran Desert Curanderismo, Toltec - Chichimeca dreamplanting, and diasporic African and Japanese energy healing.

TBN is **certified in Usui Reiki I and II**, a trained herbalist specializing in mental-emotional health and dreams, with ancestral licenses in dreamwork, elemental healing, bone divination and is a gifted seer, Sangoma initiate, initiated Pachakuti Mesa Carrier and future doctor of acupuncture.

TBN has **volunteered in advocacy and organizing work** for survivors of domestic violence and abuse. In addition to their work for others, their practice is very personal and has supported them through eighteen months of homelessness. They were nomadically based, living on farms, couchsurfing, camping in wilderness, between upstate NY and the Southwest, searching for their indigenous roots and connecting people of color to their ancestors and the land. They are currently based in Flagstaff, AZ and continue traveling for **research on diasporic African dream practices**.
